The Opportunity

Matthews™ is pleased to present **2417 W Vernon Ave**, a recently renovated **14-unit** multifamily asset in the highly desirable **Leimert Park** neighborhood of Los Angeles. Built in 1940 and comprehensively renovated, the property pairs upgraded residential units with **permitted ADU additions, with Certificates of Occupancy issued in 2024**. Leimert Park has become one of LA's most sought-after cultural and residential corridors, giving investors the rare combination of neighborhood momentum and long-term supply constraints. The result is a **turnkey acquisition requiring minimal near-term capital expenditure**, with a **stable, government-backed income base** in a submarket that continues to gain recognition among investors.

The property offers investors a durable rent roll, with **11 of the 14 units leased under Housing Assistance Payment (HAP) contracts through Section 8**, providing consistent, subsidized rental income and reduced vacancy and collection risk. The unit mix includes **twelve (12) 1-bed/1-bath units, one (1) 2-bed/2-bath ADU, and one (1) 3-bed/3-bath ADU**, giving the property broad appeal across tenant types and flexibility for new ownership to shape its leasing strategy while capturing strong rental demand.

Operationally, the property is **separately metered for gas and electricity**, simplifying management and reducing landlord expenses. With recent **renovations and ADU additions completed**, new ownership can bypass near-term maintenance concerns and focus directly on maximizing occupancy and income.

Los Angeles ranks as the #2 multifamily market in the U.S. by total inventory, driven by its scale, high barriers to entry, and deep renter base. Market conditions are expected to improve as new supply is absorbed, vacancy stabilizes, and rent growth re-accelerates. Long-term supply constraints driven by zoning, land scarcity, and construction costs continue to support rent stability and asset performance. As a result, investor confidence is strengthening, with capital targeting stabilized assets poised for future rent growth and durable cash flow.

Key Multifamily Submarkets

Los Angeles' premier submarkets represent some of the most affluent and supply-constrained rental markets in the U.S where high incomes, elevated home prices, and limited new development continue to drive sustained multifamily demand. These areas consistently command premium rents and strong

occupancy, supported by proximity to major employment centers and top-tier lifestyle amenities. Recent policy measures, including the "mansion tax," are further shifting the economics of homeownership leading many high-income renters to favor Class A multifamily living over purchasing homes in Los Angeles County.
